

Wisconsin's Heartland... On the Grow

City Assessor's / Inspector's Office

Whole Tax District

$$\text{TAX BASE} \times \text{TAX RATE} = \text{TAX LEVY}$$

Individual Taxpayer

$$\frac{\text{HOME VALUE}}{\text{(in thousands)}} \times \frac{\$00.00}{\text{Thousand}} = \text{Home Owners Tax Bill}$$

Whole Tax District is the Sum of all individual taxpayers.

Tax Levy = sum of:
(spending)

- Plymouth School Budget
- Sheboygan County Budget
- City of Plymouth Budget
- Lakeshore Tech Budget
- State of Wis. Budget

Which is how much is being spent.

Spending (budgets) drives taxes. The increase in Spending is what is important, not the tax rate. The tax rate fluctuates with the tax base.
