

# ACKNOWLEDGEMENTS

The Plymouth Area Community Survey on Current and Future Needs effort was the result of contributions from numerous individuals. The City of Plymouth Committee on Aging, as listed on the inside of the report cover, provided valuable insight and input for development of the survey. Doug Dobratz's leadership of the committee was much appreciated. Appreciation is also extended to Jane Olig for providing the survey mailing list of almost 2,500 households and assisting in distribution of the surveys. The support of the Plymouth City Council was also greatly appreciated. Many thanks must be extended to Tammy Zorn and Ann Herzog of the University of Wisconsin-Extension Sheboygan County staff who compiled the hundreds and hundreds of surveys and typed the final report. Last, but by no means least, a huge acknowledgement should be extended to the citizens that completed the Community Survey and to all the people that have and will continue working to ensure the current and future needs of Plymouth's aging population are addressed and result in a great quality of life in Plymouth!
